

THE NEW YORK CITY SST CARD

Using the SST Card Integration
Within the myComply Platform
& On Your Construction Sites

myComply

THE SOFTWARE INTEGRATION

1 Import SST ID to a Worker's Profile (Project or Company)

Each Training Connect SST Card has a unique identification code on the back of the card. Locate the SST Card ID on the back of the card and input the characters into myComply at the company or project level - click "Apply."

2 Waiting for Verification

Now the Training Connect SST card needs to be validated. In order to do this, you will need to tap the card to a myComply Smart Brick.

Tap & Hold SST Card To Connect to Server [WHITE LED]

Watch the Smart Brick as the white LED lights move in a clockwise rotation. The SST Card is now connecting.

Wait for Server to Verify SST Card Data [WHITE LED]

After the card has connected, the LED lights will start spinning (loading) in a counterclockwise direction. The Smart Brick is verifying the worker's training data.

Approved Access to Site Will Show Green [GREEN LED]

A green light means the information on the SST Card is now linked to the jobsite, and the worker's SST Card has been approved to gain access.

SOFTWARE STEP-BY-STEP

SST ID: 2B02S6PTN3 **APPLY** **1**

SST ID

SST ID: 2B02S6PTN3 **APPLY** **2**

The SST Card information will be populated after the first time it is tapped to a Smart Brick or Turnstile.

FIRST TIME ON-SITE SST CARD SET UP

3 Verified Training Connect SST Card

Once your card has been verified on-site, you can view a worker's profile in myComply. Workers with connected SST Cards will show a card icon in the employee table. 

First Name ^	Last Name ^	Title ^	Trade ^	SST ^	Invite ^	Badges ^	Certifications ^
Angel	Barqueros	Supervisor	Electrician			0	1
ASAP	Brocky	Apprentice	HVAC			0	2
Greg	Reimche	Sultan	Plumber			0	0
Matthew	Neufeldt	Journeyman	Plumber		Accepted	1	1
